

# Report of the Student Travel Grant for attending International Conference

115 年 06 月 02 日

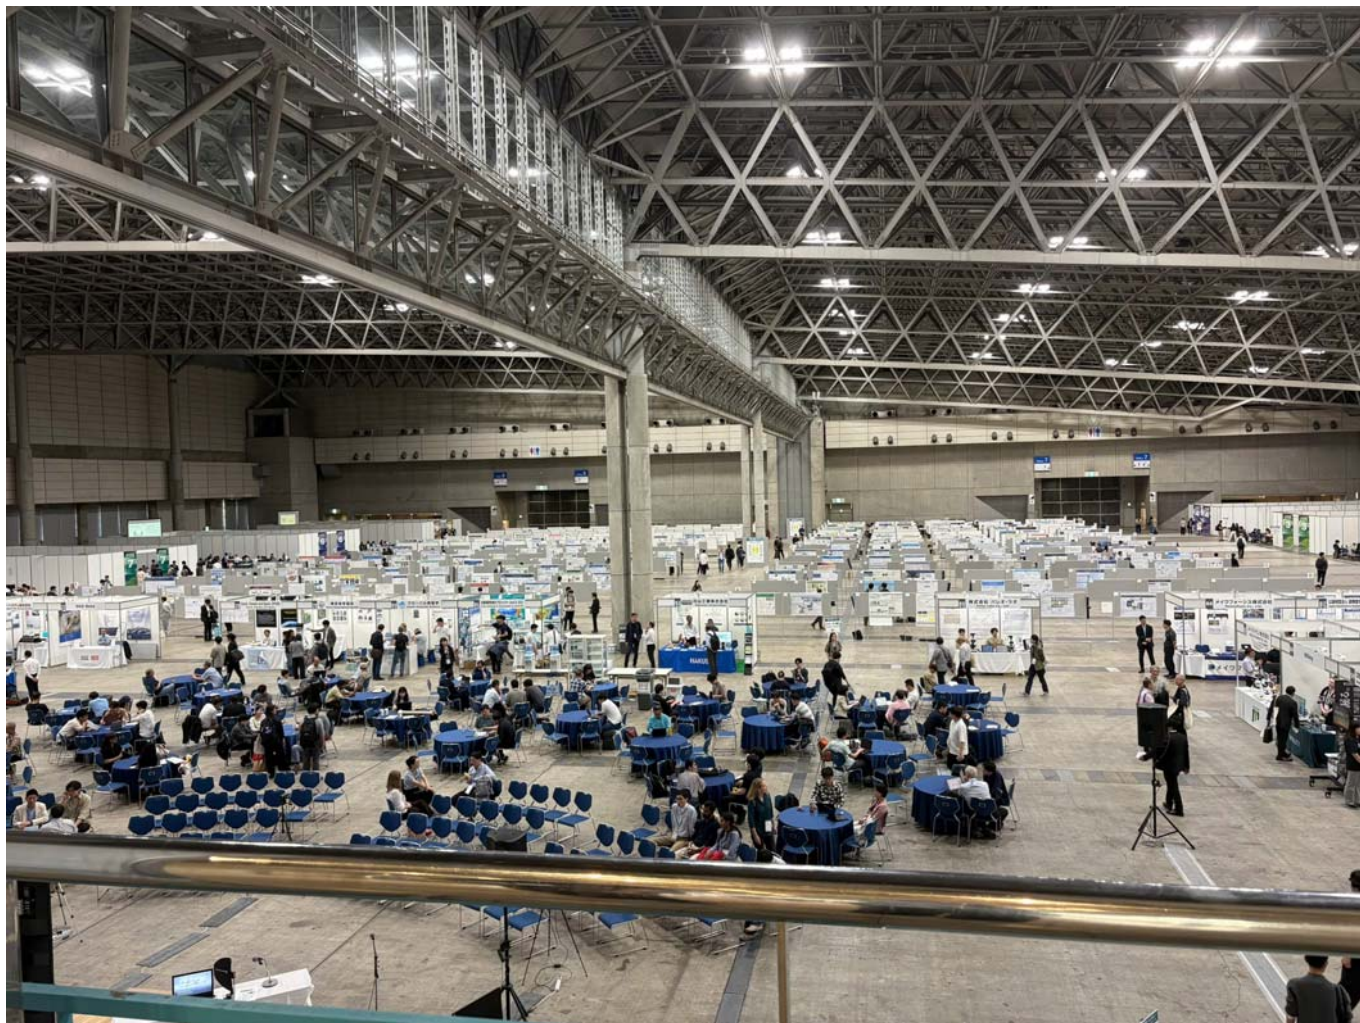

報告人姓名 Name	Vo Hong Son	其他單位 補助情形	補助總金額：15,000 NTD Total amount of subsidies
會議時間 Date	From <u>2026-05-24</u> To <u>2026-05-29</u>		補助項目：Chinese Taipei Geophysical Society
會議地點 Location	Chiba, Japan		
會議名稱 Name of Conference	JpGU-AGU Joint Meeting 2026		
發表論文題目 Title of paper to be presented	Integrating Remote Sensing and Process-Based Modeling to Characterize Shoreline Change Mechanisms in the Mekong Delta Estuary		
<p>一、參加會議經過(About attending the Conference)</p> <p>I traveled to Japan on May 24 to attend the Japan Geoscience Union (JpGU) 2026 Meeting in Chiba, held from May 24 to May 29. With over 10,000 participants, the event provided a highly dynamic academic atmosphere. I delivered my oral presentation on the morning of May 26. Throughout the week, I actively participated in numerous oral and poster sessions related to my field, exchanging ideas and discussing methodologies with international peers.</p> <p>二、與會心得(The experience of the participants)</p> <p>I focused on key topics such as interaction between land and sea, sediment transport, numerical models. Engaging in these sessions introduced me to emerging methodologies and cutting-edge technologies, providing valuable insights into how my work can align with global scientific trends. During my presentation, I received constructive feedback that helped me identify ways to address my research limitations. Additionally, informal networking during dinners and free time allowed me to build meaningful connections with fellow scientists from across Asia.</p> <p>三、考察參觀活動(無是項活動者省略)Visited tour activities(no activities are omitted)</p> <p>No official visited tour activities were undertaken</p> <p>四、建議(Suggestions)</p> <p>I strongly recommend continuing support for students and researchers to participate in major international academic exchanges like JpGU. Furthermore, I suggest that future attendees actively leverage informal networking opportunities outside of formal sessions. These interactions proved incredibly valuable and serve as an excellent foundation for facilitating future cross-border collaborations and discovering new research directions.</p> <p>五、其他(Other)</p> <p>Participating in JpGU 2026 underscored the vital importance of international academic exchange. The experience significantly broadened my academic perspective, enriched my research capabilities, and inspired me to continue pursuing high-quality research. It was a highly rewarding experience both professionally and personally.</p>
